## Message

I am happy to know that the Gramodyog Sansthan is completing 25 years of its service to people and humanity.

The State Government is committed to strengthening rural Madhya Pradesh by improving access of people to basic services. Awakening of the rural masses towards their rights and entitlements is a major task. Active participation of the poor and marginalized people in development processes can make the task easier.

I am sure the Gramodyog Sansthan will continue to serve the rural masses equipping them with all requisite information and knowledge.

I hope the silver jubilee souvenir will be of great reference value.

Regards.
